

# Access Nearpod from Home

Some of your teachers may use Nearpod for home-based learning due to emergency school closures. This overview will help you and your student access from home.

## What is Nearpod?

Teachers create interactive lessons with questions students can answer.

Students join the lesson in one of two modes: teacher-led, or student-paced.

Teachers see how students respond in real-time, and after the lesson in a report.

### Teacher-Led vs Student-Paced

#### TEACHER-LED

All students join the lesson at the same time, and the teacher controls the flow of the lesson.

#### STUDENT-PACED

Students can join and complete the lesson on their own time, as long as it's before the work is due to the teacher.

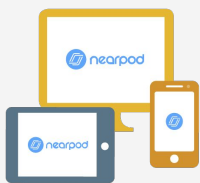

### Nearpod allows teachers to...

- ✓ Deliver engaging lessons from anywhere, any time
- ✓ Get real-time insights into student learning, even when they're not together
- ✓ Easily upload existing plans, so the same learning can happen at home
- ✓ Allow student access on any device, including mobile, with no password required

## It's easy for students to access Nearpod from home, no account required!

1

Visit [nearpod.com/student](https://nearpod.com/student) or download the Nearpod app.

Nearpod works on any device with internet!

2

Enter the code provided by your teacher and sign in with your first name and last initial.

3

Participate in the lesson by completing the questions on the screen! Your teacher will see your responses on their computer.
